

Winthrop Beach Shore Protection Rumney Marsh Restoration Contract No. P11-2686-C4A

TWO WEEK LOOK-AHEAD

August 1, 2016 – August 14, 2016

The following activities will be occurring over the next two weeks.

Rumney Marsh, Saugus

- In salt marsh restoration area D, the installation of temporary monofilament “fencing,” to discourage geese from feeding on newly-planted salt marsh grasses, is proceeding.
- The environmental monitor will observe conditions of the slopes and erosion control devices.
- A temporary construction trailer has been delivered to the Ballard Street parking lot. Trailer set-up, including activation of electric, phone and internet service, is underway.

Winthrop Beach

- Once utility services have been activated at the Rumney Marsh construction trailer, the Resident Engineer’s trailer at Winthrop Shore Drive will be removed.

Plover chicks which hatched on Winthrop Beach have fledged and the entire beach is now open to the public.

Please note that street sweeping has resumed on Winthrop Shore Drive. It occurs every 3rd Thursday of the month. Please remove cars from Shore Drive in advance of street sweeping or else they will be towed.

Questions or concerns about the project should be directed to DCR Resident Engineer Steve Colometo, at the DCR trailer behind the DCR bathhouse on Winthrop Shore Drive, by visit or phone (617-539-4957) during regular business hours, Monday through Friday from 7 a.m. – 3:30 p.m. In case of an emergency, contact 911 or DCR’s 24/7 emergency hotline at the Massachusetts Emergency Management Agency at 508-820-1428.
